Taraki:

## People of Afghanistan have joined hands in construction of the country

Following is the text of the speech of the great leader of the people of Afghanistan Noor Mohammad Taraki, General Secretary of the People's Democratic Party of Afghanistan and President of the Revolutionary Council while receiving the ulamas, elders and representatives of the various noble people of Bajawar:

My dears,  
Welcome, welcome again. Your arrival here is indeed interesting and we are glad to welcome our brothers here and say them welcome. We are happy to see you from close. It is apt to talk repeatedly much of the values and privileges of the great Saur Revolution because it is a revolution which opened a new page in the history of this part of the world and there are many other phases to come later which the world

### Population census welcomed in grand meetings, marches

PROVINCES, June 28, (Bakhtar).—To welcome the beginning and implementation of most important project of Democratic Republic of Afghanistan, that is the complete population census in the country which is continuing successfully throughout Afghanistan, grand meetings were held by a great number of our compatriots in a number of provinces yesterday.

At the meetings some of the scholars and intellectuals explained the main objectives of this national project.

The speakers at the meetings, explaining the lofty objectives of great Saur Revolution in ensuring the welfare and comfort of our toiling people, said our Khalqi state, after the victory of the irreversible Saur Revolution, has and is taking numerous measures towards ensuring the interest of our toilers. However, in order to implement the useful plans and programs of the state in a sound manner, it is essential to have dependable population census in the country. In view of this, our revolutionary state, in the first months after the victory of great Saur Revolution, instructed the concerned au-

thorities to make preparations for this national project and make efforts for its implementation.

The great Saur Revolution changed radically the society of Afghanistan and will do so in the future, and will open up the way for establishment of such a society where everybody would be happy and prosperous, where no body would exploit others, i.e. nobody would eat the flesh and blood of others. Here, everybody would work and eat the outcome of his work himself. Here no encroachment will be made on the poor people under different pretensions and the people would no more be kept destitute as was the order of the day in Afghanistan until recently.

From now on we will never allow the tyrants to remain as within the people because the people of Af-

ghanistan, are decisively determined to wipe them out; they never let those wolves among themselves to keep them destitute, slender and unfortunate. During this one year or 14 months we have laid down the foundation of a prosperous society and will do so again.

The people of Afghanistan carry on the construction of their new society with all valour because their success and victories lie in the accomplishment of such constructive works.

The people of Afghanistan have joined hands in construction of the country because Afghanistan is theirs and they are from Afghanistan. When I mention Afghanistan I mean all you the people of this land. The happiness and prosperity of all of you are linked-up with this land. Your discomfort or, God forbid, your misery are related with us. We have everything in common. We welcome one another here with all delight and will do so again.

As a result of this revolution we wiped out all those who sucked the blood of the people and acted against the people and covered their faces with colourful masks and robbed the pockets of the people under various pretensions. They have no more room here. Therefore, those who used to live on the blood of others cannot live here indeed. However, the absolute majority, 99 per cent, of the people of Afghanistan are working hard here and are determined to make their country prosperous. You see how large measures we have

accomplished so far. One of the great step that we have recently taken here which is indeed worth appreciation is census taking census taking is underway in Afghanistan for the first time. This census taking will in fact elucidate and make it clear how many people would be living in Afghanistan, how many people are old and how many are children. Yes it would find out all these. We would prepare all our future plans and future activities on the basis of the results of this census taking and thus proceed ahead confidently.

The enemies of the great Saur Revolution did not have a place here indeed. As I said earlier they went to other places to throw rocks, to fire bullets and struggle against us. But their attempts and efforts are futile and useless. We say that the people of Afghanistan are like a great ocean. This great ocean cannot be contaminated by dogs. This revolution will forge ahead and will give no opportunity to any enemy to obstruct it. It will carry out its tasks in the best manner.

Our brave armed forces ushered in the great Saur Revolution and the great Saur event under the direction of their party. They triumphed the revolution and discharged their duty. These were really the sons of Afghanistan and the pride of the people of Afghanistan. It were these sons of the people of Afghanistan who tried to resolve and overcome all the difficult-

ies and problems. They indeed rendered all sacrifice and everybody saw it. Now these armed forces are also valourously safeguarding and protecting every part and every piece of the soil of their country and will repulse any aggression to be unleashed from any direction. They should do so because our Khalqi armed forces have accomplished the great mission assigned to them under the direction of the party and that was staging of the revolution. Now their second mission is greater than the first one. They are missioned now to safeguard bravely their land and their revolution and build their society within the framework of peace and security in Afghanistan.

Of course this is indeed not only the honour of the armed forces but is also the honour of all the people of Afghanistan. The armed forces of Afghanistan constitute a small part of the people of Afghanistan. This part is also the sons of the people and move on their command and according to what is in their interest.

Under the atmosphere of peace and security our state accomplishes good tasks which are really unprecedented in the history. As I have repeatedly said these tasks are very great and very heavy and the state has accomplished them in a period of one and half year and it is indeed unprecedented in the world that such wide and vast steps are taken forward by a people

### Afghanistan rejects China's protest

KABUL, June 28, (Bakhtar).—According to a report reaching here from the Embassy of the Democratic Republic of Afghanistan in Peking a high official of the Chinese Ministry of Foreign Affairs recently told the charge d'affaires of the Afghan Embassy that it has been for several months that the leaders of Afghanistan and also the newspapers and Radio-TV of Afghanistan accuse directly and indirectly the People's Republic of China of interfering in the internal affairs of Afghanistan and

they also say that anti-Afghanistan's revolution elements are trained and equipped by China and sent to Afghanistan. Therefore the Chinese government protests to Afghanistan against this accusation. He added, "We have never said anything about Afghanistan and are interested in continuing our friendship with Afghanistan."

The Charge d'Affaires of the Chinese Embassy in Kabul was summoned to the Ministry of Foreign Affairs of the Democratic Republic

of Afghanistan yesterday and with the following explanation the protest of that country was described unwarranted and was strongly rejected.

Long before the official authorities of the Democratic Republic of Afghanistan had mentioned about the interference of China in the internal affairs of our country and the training and arming of reactionary deserters and the enemies of our revolution a great number of news agencies and newspapers of the world

(Continued on p.4)

### H. Amin addresses Bajawor patriots!

KABUL, June 28, (Bakhtar).—Hafizullah Amin, Secretary and member of the Politburo of PDPA CC and First Minister while receiving the representatives of the noble people of Bajawor in a scholarly and valuable speech said.

Our toilers got united and established the party under the guidance and training of their beloved leader, the Great Leader of the people of Afghanistan. They rallied their brothers and

### Hashemi in Mazari Sharif

MAZARI-SHARIF, June 28, (Bakhtar).— Pohanwal Mansour Hashemi, minister of water and power inspected the electric substations of Mazari Sharif yesterday.

The Minister of Water and Power explained the sacred objectives of the great Saur Revolution and drew the attention of the concerned officials towards their duties.

The Bakhtar reporter adds that during this visit the concerned officials provided necessary information to the Minister of Water and Power.

The Minister of Water and Power arrived in Mazari Sharif at 11.45 a.m. and met Abdul Ahad Wolessi, secretary of the provincial committee and governor of Balkh province, members of the provincial committee and presidents of various departments of the province.

### WB loan documents inked in N.Y.

KABUL June 28, (Bakhtar).— The Information Department of the Ministry of Foreign Affairs reported that the documents pertaining to the 17,600, 000 dollars credit for the third phase of the Highway Maintenance project and also the documents regarding the 16,500,000 dollars credit related to the agriculture and Rural Development Project here were signed recently in Washington between the Charge d'Affaires of the embassy of DRA and the concerned sources of the World Bank.

(Continued on p.4)

sons and put the name People's Democratic Party of Afghanistan on it. And now we have the honour that this Great Leader of Afghanistan has been the General Secretary since the establishment of the Central Committee of the PDPA. We have the honour that he is the beloved leader of all the people of Afghanistan and that Comrade Noor Mohammad Taraki, President of the Revolutionary Council of the Democratic Republic of Afghanistan today also guides us all.

Hafizullah Amin, First Minister received a number of ulamas, elders and representatives of the noble people of Bajawor tribes at the Stor Palace of the Ministry of Foreign Affairs at 10:00 am yesterday.

When Hafizullah Amin, First Minister arrived at the hall of the Stor Palace the audience stood up and warmly welcome him with expression of warm enthusiasm and feelings of sincerity, long clapping and shouting of revolutionary slogans.

At this time two persons from among the audience on behalf of various tribal people of Bajawor presented a bouquet of flower to the First Minister.

Hafizullah Amin, after responding to the warm feelings of the audience delivered a scholarly and valuable speech which lasted two hours.

The text of the speech of Hafizullah Amin, First Minister which was applauded with long clapping and shouting of revolutionary slogans was broadcast over radio last evening.

At the end of the speech of First Minister one of the members of the audience in a speech thanked the First Minister for receiving them and talking to them in an atmosphere of sincerity and friendship.

We see by our own eyes in practice, he said, that Pakistani militiamen are instigated against the Islamic state of Afghanistan and the people of Afghanistan and unleash aggression against them.

At the end he expressed the full and decisive support of the valourous tribes of Bajawor to the revolution of Afghanistan and the Khalqi state and expressed their readiness for every sacrifice for the purpose of eliminating the enemies of the people of Afghanistan.

Hafizullah Amin, Secretary and member of the Politburo of the PDPA CC, First Minister and Minister of Foreign Affairs receiving a number of noble people, and representatives from different parts of our country at the Stor Palace of Foreign Affairs Ministry.

## People of Afghanistan have joined hands in construction of the country

(Continued from page 1) and a nation for the construction of a new society. For instance, we issued decrees nos. 6, 7 and 8. We have undertaken census project. We have done other works which are really great and in the interest of the prosperity of the people of Afghanistan.

These measures further guarantee the happiness of the people of Afghanistan. The state will again lead us towards the prosperity of Afghanistan. The party leads us in a very desirable way. Not only the toiling people of Afghanistan but also all the people of the region will benefit from it.

It was one of our great programmes and wide measures how to distribute these vast lands stretched throughout Afghanistan and owned and possessed by few while others wandered around hungry and thirsty, how to give these lands to them so as they could plough and harvest them well and possess their titles. We accomplished this great task in a period of six months. Now the distribution of land has been ended in Afghanistan. There will be no more such feudal lords and such persons in Afghanistan who would possess thousands of jeribs of land. From now on no person in Afghanistan would have more than 30 jeribs of land.

This means that the aspiration of the toiling people of Afghanistan who had been aspiring for a piece of land has been fulfilled. Now they can own land, till it, plough it, harvest it and get benefit from its yields for himself. There would be no more anyone to cherish the desire of having a piece of land so as he would live on it.

Now the people of Afghanistan can never say that they are unemployed or that there is unemployment here. When anyone says that he is unemployed we would immediately give him land and would tell him "This is the land, this is the seed, this is the oxen and plough, till it, harvest it and take benefit from it."

I want you dears to come on, you are ours. We are like flesh and nail. You have also your share in these lands. God help you come here. Whether you are one family, thousand families or ten thousand families we give you land and supply you all the facilities needed for your land. We let you settle down, we help you like our sweet brothers. Come, God help you come here.

### LAND TO

### LANDLESS

(Continued from page 3) of the Central Committee of PDPA and President of the Revolutionary Council has taken and takes actions for welfare of the people and blossoming of Afghanistan. Decree No. Eight and its implementation is among these public welfare actions which will eliminate feudalism in our country. (The landless and petty land holding peasants will become owners of land free of charge.

re. Come and live with us. when you return convey this message of mine to all, to the Pashtoons and Baluchis, and tell them you have also right to get benefit from the distribution of land in Afghanistan. Your share has been kept safe and this right will be reserved with us.

With one of our other decrees we indeed abolished usury in Afghanistan. Now usury is never practiced in Afghanistan like in the past. In the past they pretended to lend money, say hundred afghanis, and then they wanted it to be repaid in wheat, say one seer. They said that it was not usury. But all our real mullahs were saying and were declaring that it was usury. We abolished the practice of lending money, usury and mortgaging all.

Our act was in compliance with the Shariat of Islam. Our Jamiatul-ulama (association of religious scholars) and all scholars of the world have given their support in this connection. Nobody can reject this act. The practice of usury and mortgaging is indeed illegal and we should not give any one the right to practice illegal act in Afghanistan any more. If anyone wants to sustain living and live an honourable life we provide him with means of living and that is land, factories etc. With these they can indeed work freely and can make lawful living and provide bread for themselves. They would no more be compelled to commit theft and suck the blood of others.

Likewise, you know that in this region and especially in Afghanistan trading of girls was prevailing as a legal act. It was indeed contrary to the Shariat of Prophet Mohammad.

After the victory of the Saur Revolution we could prohibit this act which was contrary to the way of God. Nobody can sell his daughters against money or make themselves happy by selling their little daughters and hand over those poor daughters like slaves to others. This is completely forbidden in the Shariat of Islam. We have also prohibited this practice and we have forbidden it in practice too. Now nobody can practice this at all. These decrees of us stirred a great number of our enemies and the enemies of the people of Afghanistan and compelled them to stand against us because they can no more perform the past acts. Therefore, I once again say that we have no hostility towards the real people of Afghanistan. Pashtoon and Baluchis have no animosity towards us. They are not our enemies. The toilers of the region are not our enemies. Our enemies are those usurers who have in fact no place in Afghanistan and they shouldn't. We want their faces blackened.

Rented mullahs and other agents of farangis are now telling lies about us and

level accusations against us. One of their accusations was that they used to say "They are infidels" and we tell them that you farangis and you agents of farangis who call us infidels are infidels yourselves. Here there is no question of infidelity.

We are the sons of Muslims and the sons of toiling Muslims and we serve the toiling Muslims who have no precedent in the history indeed. They also say this lie as if we have torn down mosques here and, God forbid, set them on fire and created every difficulty for Islam here and against the Muslims and as if infidelity is totally prevailing here. We tell them that all these are your lies. These are all baseless accusations. Now that you dears have come here, as I said repeatedly to others, see whether there is infidelity in Kabul or not. See whether Islam prevails or not. Here there is prevailing the Shariat of Islam, here call is made for offering prayers, here there are mosques and everything. But the Farangis and their agents do not accept this because it is to their benefit to make propaganda against us here, to say bad things so as the people are annoyed from us. Of course, the people at the outset were doubtful thinking that infidelity might have come here or mosques might have been burnt here. But when everybody came here and saw the various wards of Kabul city they found everything properly going on and everything was moving according to the Shariat of Islam. We have the honour to advise other people coming to Afghanistan to see and find out whether the propagandas of our enemies are right or wrong.

If they are wrong then say that these propagandas are wrong and baseless. If they are right we would not stop them to say something against us. We will say that they are all correct. Thanks God, we are all Muslims. The state of Afghanistan is the state of toiling Muslims. This state will never allow anyone to struggle against Islam. Some of our neighbouring countries, i.e., the fanatics of Iran and the reactionary circles of Pakistan, do not look at our revolution with respect because their toilers are happy with such type of our revolution. They will inevitably bring in such revolution in their own country and it is why they are carrying out propaganda against us. The fanatic Shiites of Iran are totally aroused against us and they even declared jihad against us and against Afghanistan. There is a proverb which says "They did not let him come in the village but he said fasten my horse in the chieftain's house". These fanatic Shiites do not consider the people of Afghanistan Muslims. They again call us infidel. Now you think yourselves that they are wrong and we say again that at the toilers of Iran are our brothers and we have nothing to do with them. But

their fanatics are really so fanatics that they want all people to become like them. They never look at others with respect. Therefore they struggle against us under various pretensions. But the people of Afghanistan have foiled their struggles and have given them teeth-breaking response. In Pakistan too there are some agents of farangis who have deserted there. In Pakistan there are some fanatic circles whom you might know. They are instigated by imperialism, i.e., Samarajis. They are given money and they have launched propaganda against Afghanistan. We tell them that their allegations have not been true about us until yesterday and today. This is not true. The people of Pakistan, for instance, until now are under the domination of farangis. The people of Afghanistan were Muslims at that time and are so now. They will also be good and be Muslim toilers in the future. Their propagandas are carried at the instigation of the farangis. We laugh at this and send curse upon them for their accusations. We have said this repeatedly and say it again now that the great Saur Revolution is the Revolution of Pashtoons and Baluchis. They are very happy with it and they support this revolution. The toilers of Punjab are also the supporters of our revolution. They are our brothers. The toilers of Sindh are also our brothers. The toilers of Iran and the toilers of all the Islamic world are our brothers. We want with them full brotherhood and our brotherhood is with them. We are inseparable. Whatever the enemies say they also laugh at it and so do we. We struggle against them and so do they. When there comes any discord, sometimes in a house or clan they unconsciously fight with one another and will be in no good term. We say that whoever are annoyed and embarrassed from us and whoever have not

### Kabul Press

Continued from page 2 the hands of friendship to all countries of the world, specially to the neighbouring countries and have desire to strengthen the bond of equality and brotherhood among the peoples of the world.

The paper opines that our toiling people during the past months since the emergence of the great Saur Revolution were able to distinguish their friends as well as enemies through their revolutionary and friendly conducts. It was because the main yardstick of friendship is now in the command of the people and our people could distinguish their friends and enemies.

The paper on its youth page carries two articles entitled, "The new khalqi and progressive culture and role of the struggling youth in disclosing the conspiracies of imperialism". The first article says that the presents progressive culture is based on struggle against inequalities.

### Soviet guest arrives

KABUL June 26, (Bakhtar).—Yamil Yanova deputy minister of social affairs of the Union of Soviet Socialist Republic arrived in Kabul yesterday at the head of a delegation on the invitation of Khalqi Organisation of Afghan Women.

At Kabul International Airport Ali Gul Pajwand deputy minister of information and culture and Dilara Mahak, president of the Khalqi Organisation of Afghan Women and some officials of that organisation and Ambassador and some members of the Soviet Embassy in Kabul, welcomed the delegation.

realised us well and have been under the impact of the propagandas of the agents of farangis and fled from here to other countries but in reality they are Muslims we have declared general amnesty for them so as they return to their country and their homes. This is their home country and we help them return to their homes. This general amnesty declared by us has been welcomed and received well by many of the people. Many people who had clean hearts and were really Muslim toilers have returned. But those who have taken money and are expecting further money and want to come into Afghanistan in order to loot and plunder like burglars and predators they will not return however. They have not returned so far. We say that such people should never come to Afghanistan and they will never have any place here. The waves of our revolution are moving well ahead, sometimes rapidly and sometimes slowly. In a country where there has come such a revolution revolutionary waves inevitably rise up. I once again tell you no body is angry with us, no Muslim toiler is angry with us. Only the enemies of the people are angry with us indeed. I say it again that these waves will never pose any danger to the ship of our revolution. The ship of our revolution is forging ahead firmly, proudly and with all grandeur.

It is going ahead for sure because all the toiling Muslims of Afghanistan and all her toiling nationalities support our revolution, our Pashtoon and Baluch brethren support it and they should safeguard it. They have unbreakable ties with us. It is why I say that this ship is moving ahead and it will be moving so.

The construction work of our country is going on with all joy and splendor. As we have said earlier we do all-sided works to ensure the prosperity of the people of Afghanistan; whether it is material or moral happiness we will achieve it. It is not far for the people of Afghanistan to have such prosperous and happy life. This is the right of every man to have a calm life. This kind of life is in the society where there is no exploitation. Exploitation is that when hundred people work but one person eat the outcome of it. We say that when hundred people work all of them should eat the result of their labour. This is the example of our works. Our state and our party are proud that we are busy in awakening of all parts of Afghanistan and in ensuring their happiness. If anybody throws a rock towards us the rock will hit his own head. If any one attacks us we have the ability and competency to respond to this attack in a good manner. But at the same time we want friendship with everybody and all countries. We have extended

the hands of friendship towards them and we want their friendship provided they do not interfere in our internal affairs and do not meddle in our internal affairs, do not incite our people, do not bother them, do not trouble them and do not attack us. If they do this then we can never become their friend. If they do not interfere in our internal affairs then we would be their friend and would live with them brotherly. We would never allow anybody to seize a piece of the soil of Afghanistan or do anything at the behest of others. The state of Afghanistan, and the party of the people of Afghanistan proudly and independently proceed ahead and will remain independent. Nobody dances at the beat of the drum of anybody here. Our non-alignment, and our independence are very dear and respected to us. We not only safeguard it but also strengthen it and for this purpose we make all-sided endeavours. All people should recognise us as a non-aligned country in practice. We are not under anybody's influence and order. Here all sorts of lie

are told against us. These are the lies of Samarajis. These are the lies of imperialism. You know the people of Afghanistan and you know how much struggles they have made in the past against farangis. In the same manner we will never allow anybody to interfere, duly or unduly, in our internal affairs. We will give them the same sentence as we did previously to the farangis. We would likewise give the fanatics or reactionaries, who are trying to interfere in our internal affairs, such a punishment as we have done to the farangis.

Thus, once again I assure you brothers that Afghanistan is an independent and non-aligned country. Here such society will be built where everybody will live in comfort and happiness. We want firm brotherhood and closeness with the people of the region whether Pashtoon, Baluchis, toilers of Punjab, toilers of Sindh, whether toilers of Iran or toilers of all Muslims of the Islamic world or all the toilers of the world. If this is our good we want their's good too.

## DRA refutes Chinese...

(Continued from page 1) carried some news in this regard. For instance, New View daily published from New Delhi in one of its issues wrote that the Chinese have sent their military advisors to Pakistan so as to give guerrilla training to Afghan deserters and that arms despatch was continuing from China. The famous magazine Economist published in London in one of its issues quoting members of the Board of Narcotics Control of Pakistan wrote that Chinese militarymen have been despatched from Peking to Pakistan for giving guerrilla training to Afghan deserters. Similarly most other news sources have given such news.

Furthermore, later events showed that the hands of ruling circles of some neighbouring countries are deeply and directly involved in the sabotage and anti-revolution activities in Afghanistan. For example, from a number of saboteurs captured along with arms made by the imperialist and reactionary countries a sufficient quantity of Chinese made arms have also been found.

In addition, the clear and obvious confessions made by a number of our countrymen who had been deceived by the reactionary deserters and have now returned to their prideful homeland Afghanistan prove that the ruling circles of some neighbouring countries have direct hand in arming and training of the anti-revolution saboteurs.

The Chinese propaganda sources in their domestic and foreign news services have been carrying for months fabricated and false news about Afghanistan quoting the imperialistic and

reactionary propagandistic media.

These sources due to their hostility with a third country often draw Afghanistan into the scene in a provocative manner and in this way they create doubt about the free and independent will of the people and our Khalqi state.

But inspite of that the government of the Democratic Republic of Afghanistan with due consideration of friendship and interest in peace of the region and the world for sometime refrained from disclosing irrefutable documents and evidences pertaining to the foreign intervention and even from disclosing the names of some of the intervening countries and ignored their provocations.

The government of the Democratic Republic of Afghanistan in pursuance of its unbreakable beliefs and respect to the principles of coexistence has proved in practice that it is desirous of friendship and understanding with all the countries of the world especially its neighbouring countries and for the realisation of this end has put great stress on the principle of non-interference in the internal affairs of others.

If the Chinese authorities are interested in maintaining friendly relations with Afghanistan, as they claim so, it is better they prove their claim in practice and avoid committing acts which undermine relations between the two countries.

In its turn Afghanistan is desirous of friendship and having normal relations with China and will never do any act which would cause strain in the relations between the two countries.

Deputy Minister for Social Affairs of USSR on arrival in Kabul at the invitation of KOAW.

Explosives and machine guns, with US and China markings, captured from Pakistani militiamen by our brave armed forces.
